

Survey of Parent Interest in Online Learning

The state legislature recently passed legislation expanding student access to online learning. As a result, students enrolled in grades 6-12 in a public local district or public school academy may (with parental consent) enroll in up to two online courses during an academic term – or more if parents, students, and school leadership agree that more than two are in the best interest of the child.

How interested are you in your student taking an online course?

- Very Interested
- Somewhat Interested
- Not Interested
- Uncertain

I am familiar with the characteristics of a successful online learner.

- Yes
- No

I think my student would be successful taking an online course.

- Yes
- No
- Maybe

My comfort level in having my student enroll in an online course is

- very comfortable (no concerns).
- somewhat comfortable (minor concerns).
- not comfortable (major concerns).

In general, I believe online courses are

- easier than face-to-face courses.
- more difficult than face-to-face courses.
- about the same as face-to-face courses.

Please check all that apply:

I am interested in my student using online courses

- to learn 21st century skills.
- to get ahead in school.
- to get caught up in school.
- to take courses not available locally.
- because of a scheduling conflict.
- because of a learning preference.
- for other reasons.

Thank you for taking the time to share your responses with us.
