

Survey of Student Interest in Online Learning

The state legislature recently passed legislation expanding student access to online learning. As a result, students enrolled in grades 6-12 in a public local district or public school academy may (with parental consent) enroll in up to two online courses during an academic term – or more if parents, students, and school leadership agree that more than two are in the best interest of the child.

How interested are you in taking an online course?

- Very Interested
- Somewhat Interested
- Not Interested
- Uncertain

I am familiar with the characteristics of a successful online learner.

- Yes
- No

I think I would make a good online student.

- Yes
- No
- Maybe

My comfort level in taking an online course is

- very comfortable (no concerns).
- somewhat comfortable (minor concerns).
- not comfortable (major concerns).

In general, I believe online courses are

- easier than face-to-face courses.
- more difficult than face-to-face courses.
- about the same as face-to-face courses.

Please check all that apply:

I am interested in taking online courses

- to learn 21st century skills.
- to get ahead in school.
- to get caught up in school.
- to take courses not available locally.
- because of a scheduling conflict.
- because of a learning preference.
- for other reasons.

I am interested in taking online courses in

- Electives
- English Language Arts
- Math
- Science
- Social Studies
- World Languages

Thank you for taking the time to share your responses with us.
